- ✓ Automatic transfer of transaction and statement data
- ✓ Can be integrated into a wide range of ERP systems and business software

First year: CHF 2,500; subsequent years: CHF 2,000

Get started now with the Smart Data web portal

The Smart Data web portal provides a central overview of business expenditure. Here you can access your credit card and transaction details anytime, anywhere. This makes regular checks both easy and reliable.

Benefits you will value

Complete transparency

All your company's cards and transactions are clearly displayed – from the transaction date and merchant details to the individual amounts concerned.

Efficient reporting

Standardised reports in Excel, CSV or PDF format, featuring detailed analyses for individual accounts or cards, make analytics easier. Thanks to the report generation feature, these are generated automatically and on a regular basis.

Electronic statements and extracts

Easily access a clear transaction history, including individual or consolidated statements as PDF files, for individual accounts or cards.

Web platform requiring no installation

You can easily access the platform via your browser, without the need for separate software or additional IT work.

Direct ERP integration (optional)

With File Delivery, you can benefit from automated data transfer to ERP and accounting systems. Thanks to batch processing and standardised data formats, everything is sent directly to you.

Get started right away

STEP 1

Register online

Download the form, fill it in and email it to firmenkarten@viseca.ch. Up to two users can be registered.

Scan the QR code
or click on the following link:
viseca.ch/smartdata

STEP 2

Receive your login details

Once you have received your login details and user manual, all you need to do is go to www.sdol.viseca.com – and that's it.

STEP 3

Use File Delivery as and when you need it

To automatically integrate the data you need into your ERP or accounting system, simply send an email to firmenkarten@viseca.ch.
