

## **Special conditions for the “e-banking connection”**

### **1. e-banking connection**

MyAccount is an online service of Visa Card Services SA that allows cardholders to call up their credit card transactions and other card information. Provided the cardholder's bank offers its customers the “e-banking connection” service, the cardholder can directly access the e-banking platform of his/her bank after logging in and also access MyAccount and the data contained there without a further login. In addition, certain details about the card (e.g. the card transactions carried out since the last monthly statement) can be made available directly to the cardholder on the e-banking platform upon every login.

### **2. Login/registration for the e-banking connection.**

Cardholders who wish to use this service can register at [www.viseca.ch/myaccount](http://www.viseca.ch/myaccount) and can then log into the direct e-banking connection to MyAccount via the link to MyAccount on the e-banking platform of their bank. Cardholders who are already registered on MyAccount can log in via the link to MyAccount on the e-banking platform of their bank for the e-banking connection.

Cardholders can deactivate the e-banking connection in MyAccount at any time.

### **3. Fees/charges**

Visa Card Services SA does not charge the cardholder any fees or charges for this service.

### **4. Consent**

The cardholder should be aware that the bank and other possible third parties commissioned by the bank with the operation of the e-banking platform may obtain access to customer details and/or transaction details of the cardholder. The cardholder hereby grants his/her express consent to the transmission of such customer and transaction data from Visa Card Services SA to the bank for the purpose of being able to make this data available to the cardholder on the e-banking platform of the bank. The bank is bound to strict confidentiality about this data and will neither use the data for its own purposes nor store such data permanently.

### **5. Other provisions**

These terms and conditions shall have priority in the event of any contradictions between these special conditions and the valid terms and conditions for the use of credit cards of Visa Card Services SA. Furthermore, in addition to the present provisions, those provisions of which the cardholder was notified when logging onto or registering for MyAccount and any other online services continue unchanged.
